

AI VENDING MACHINE

Intelligent Unmanned Vending
Pioneer in Retail

■ Company Introduction

Founded in 2017, HAHA Vending is a global company in vending solutions and a member of NAMA, with subsidiaries in the U.S., the UK, continental Europe, China, Hong Kong (China), and Singapore. Our global reach empowers partners through integrated OEM and API solutions. With 70+ patents and a team of 200 professionals, we drive vending innovation worldwide.

8+

Years of Industry Experience

13000+

Global Customers

150000+

Machines Sold Worldwide

2000+

Professional Operators in the U.S.

■ Vending Machine Comparison

	HAHA AI Smart Vending	Traditional Vending
What it Sells	☒ Anything (drinks, snacks, flowers, fresh produce, glass items and more)	☒ Limited selection (no glass, fresh produce, or irregular-sized items)
Where it Works	☒ Anywhere (offices, dorms, gyms, and more), one person moves it easily — fits doors and elevators	☒ Bulky and heavy (limited to larger or more accessible locations)
How Customers Buy	☒ Grab multiple items at once, higher spend per visit, pay any way (card, Apple Pay and etc.)	☒ One item per purchase, tend to result in lower average transaction value
How it Restocks	☒ Smart APP alerts tell staff when and what item to restock — more storage flexibility	☒ Fixed slots, less flexible and slower to restock
Machine Design	☒ Slot-free design, easy to maintain with a lower failure rate	☒ Complex slot design, harder to maintain and a higher breakdown rate
User Experience	☒ Quick and easy — customers pick items directly without bending	☒ Less user friendly — items drop behind a door, requiring customers to bend and pick

■ How does HAHA Smart Vending Work

Step 1
Swipe/Tap

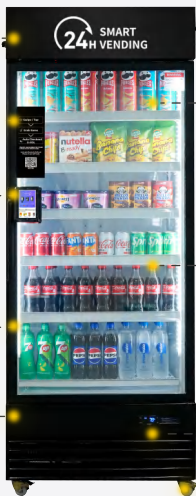

Step 2
Grab Items

Step 3
Automatic Checkout in 60 seconds

Our Machine

- UPS backup power source
 - Aluminum alloy and self-rebound door
 - Touch screen POS reader with lower transaction fees
 - LED light strips
 - Anti-theft armored steel
- 
- The glass door is equipped with electric heating to prevent fogging
 - 6 shelves that are movable and can be freely combined
 - Automatic evaporation water box
 - Four 2-inch nylon wear-resistant universal wheels

Main Control Unit

[AI] AI suite with 99% product recognition accuracy, based on vision algorithm technology.

Our AI Vending App

Advanced Cloud Management System "AI VENDING"

Our all-in-one cloud platform gives operators full control and visibility. From sales statistics, order and product management, to device activation, configuration, and restocking - AI VENDING streamlines operations, boosts efficiency, and drives smarter business decisions.

■ Our Services

Warranty

Our vending machines come with a one-year maintenance period, during which any malfunctions or repairs are free of charge.

After-Sales Services

We provide dedicated one-on-one service groups, with 24/5 online support on weekdays and 11-hour online support on weekends.

Customized Services

The wraps or stickers of the vending machines can be customized and we can provide design services free of charge.

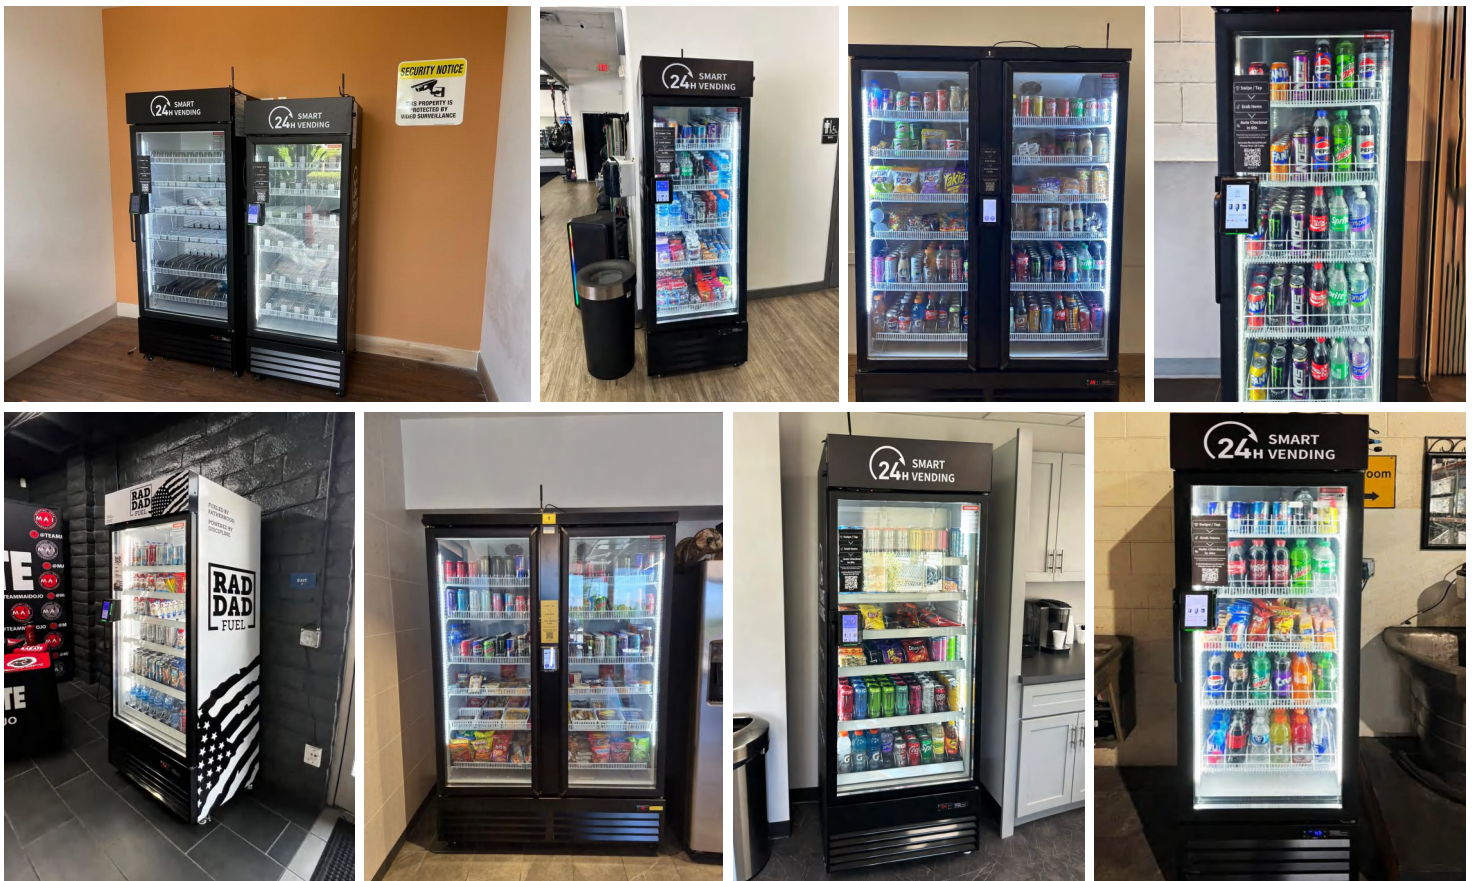

Technical Support

We provide lifelong technical support.

■ Success Cases

After eight years of stable operation, HAH A VENDING has established an extensive presence in various locations including schools, factories, communities, and business districts in the U.S., the UK, continental Europe, China, Hong Kong (China), and Singapore.

Mini 360

**Cost-effective entry-level mini model:
Suitable for beginners to try out**

Core Advantages

Shelf Display	6 shelves (5 shelves of 500ml bottled products + 1 shelves of 330ml canned products) ≈ 252 bottles of beverage		
Product Capacity	13.9 cu ft	Temperature Range	32°F~50°F
Product Weight	Exterior Dimensions (WxDxH)		Power Consumption
189.6 lb	22.8*26*76 inch		2.0 kWh/24h

Product Configuration

Technology Implementation	Payment Methods
AI vision technology	Credit/Debit Cards and Apple Pay, etc.
LOW-E Anti-Fog Glass Door	APP-Adjust Temp
Standard, prevents product condensation	Remote Control with APP
Door Frame Material	
Aluminum alloy, long-lasting, durable, and not easily deformed	

Sensitive Recognition

Recognition Accuracy	Recognition Speed	New Product Time
99%	About 60 seconds	Under 6 hours
Supported Product Categories	Beverages, snacks, and all categories	

Plus 440

**Professional entry-level model:
Suitable for beginners & professional operators**

Core Advantages

Shelf Display	6 shelves (5 shelves of 500ml bottled products + 1 shelves of 330ml canned products) ≈ 324 bottles of beverage		
Product Capacity	15.8 cu ft	Temperature Range	32°F~50°F
Product Weight 232.6 lb	Exterior Dimensions (WxDxH) 27.2*27*76.6 inch	Power Consumption 2.28 kWh/24h	

Product Configuration

Technology Implementation AI vision technology	Payment Methods Credit/Debit Cards and Apple Pay, etc.
Anti-Fog Heating Door Standard, prevents product condensation	APP-Adjust Temp Remote Control with APP
Door Frame Material Aluminum alloy, long-lasting, durable, and not easily deformed	

Sensitive Recognition

Recognition Accuracy 99%	Recognition Speed About 60 seconds	New Product Time Under 6 hours
Supported Product Categories	Beverages, snacks, and all categories	

Pro 542

**Professional pro model:
Tailored for advanced professional operators**

Core Advantages

Shelf Display	6 shelves (5 shelves of 500ml bottled products + 1 shelves of 330ml canned products) ≈ 378 bottles of beverage		
Product Capacity	19.7 cu ft	Temperature Range	32°F~50°F
Product Weight 270.1 lb	Exterior Dimensions (WxDxH) 29.5*25.6*79.5 inch	Power Consumption 2.65 kWh/24h	

Product Configuration

Technology Implementation AI vision technology	Payment Methods Credit/Debit Cards and Apple Pay, etc.
Anti-Fog Heating Door Standard, prevents product condensation	APP-Adjust Temp Remote Control with APP
Door Frame Material Aluminum alloy, long-lasting, durable, and not easily deformed	

Sensitive Recognition

Recognition Accuracy 99%	Recognition Speed About 60 seconds	New Product Time Under 6 hours
Supported Product Categories	Beverages, snacks, and all categories	

Freezer 550

**Professional freezer model:
Suitable for beginners and professional
operators with freezing needs**

Core Advantages

Shelf Display	6 shelves (5 shelves of 500ml bottled products + 1 shelves of 330ml canned products) ≈ 384 bottles of beverage		
Product Capacity	20.0 cu ft	Temperature Range	(-8)°F~(-1)°F
Product Weight	Exterior Dimensions (WxDxH)		Power Consumption
329.6 lb	27.6*35.8*80.4 inch		8.33 kWh/24h

Product Configuration

Technology Implementation	Payment Methods		
AI vision technology	Credit/Debit Cards and Apple Pay, etc.		
Anti-Fog Heating Door	APP-Adjust Temp		Remote Control with APP
Standard, prevents product condensation			
Door Frame Material			
Aluminum alloy, long-lasting, durable, and not easily deformed			

Sensitive Recognition

Recognition Accuracy	Recognition Speed	New Product Time
99%	About 60 seconds	Under 6 hours
Supported Product Categories	Ice Cream, Frozen Desserts, Frozen Prepared Foods, and More	

Max 620

**Professional max model:
Tailored for professional operators with high
capacity demands**

Core Advantages

Shelf Display	6 shelves (5 shelves of 500ml bottled products + 1 shelves of 330ml canned products) ≈ 420 bottles of beverage		
Product Capacity	20.9 cu ft	Temperature Range	32°F~50°F
Product Weight 242.5 lb	Exterior Dimensions (WxDxH) 31.5*26.4*79.5 inch	Power Consumption 4.2 kWh/24h	

Product Configuration

Technology Implementation AI vision technology	Payment Methods Credit/Debit Cards and Apple Pay, etc.
Anti-Fog Heating Door Standard, prevents product condensation	APP-Adjust Temp Remote Control with APP
Door Frame Material Aluminum alloy, long-lasting, durable, and not easily deformed	

Sensitive Recognition

Recognition Accuracy 99%	Recognition Speed About 60 seconds	New Product Time Under 6 hours
Supported Product Categories	Beverages, snacks, and all categories	

Max 620S

**Professional max model with ad display:
Tailored for professional operators with
high-capacity demands**

Core Advantages

Shelf Display	6 shelves (5 shelves of 500ml bottled products + 1 shelves of 330ml canned products) ≈ 420 bottles of beverage		
Product Capacity	20.9 cu ft	Temperature Range	32°F~50°F
Product Weight 242.5 lb	Exterior Dimensions (WxDxH) 31.5*26.4*85.8 inch	Power Consumption 4.2 kWh/24h	

Product Configuration

Technology Implementation AI vision technology	Payment Methods Credit/Debit Cards and Apple Pay, etc.
Anti-Fog Heating Door Standard, prevents product condensation	APP-Adjust Temp Remote Control with APP
Door Frame Material Aluminum alloy, long-lasting, durable, and not easily deformed	

Sensitive Recognition

Recognition Accuracy 99%	Recognition Speed About 60 seconds	New Product Time Under 6 hours
Supported Product Categories	Beverages, snacks, and all categories	

Ultra 1200

**Professional Ultra model:
Tailored for professional operators and
especially popular among professionals**

Core Advantages

Shelf Display 12 shelves of 500ml bottled products ≈ 756 bottles of beverage

Product Capacity 39.9 cu ft Temperature Range 32°F~50°F

Product Weight Exterior Dimensions (WxDxH) Power Consumption
379.2 lb 53.9* 28.0* 79.5 inch 6.2 kWh/24h

Product Configuration

Technology Implementation Payment Methods
AI vision technology Credit/Debit Cards and Apple Pay, etc.

Anti-Fog Heating Door APP-Adjust Temp
Standard, prevents product condensation Remote Control with APP

Door Frame Material
Aluminum alloy, long-lasting, durable, and not easily deformed

Sensitive Recognition

Recognition Accuracy Recognition Speed New Product Time
99% About 60 seconds Under 6 hours

Supported Product Categories Beverages, snacks, and all categories
